Treatment: Treat symptomatically. Symptoms may be delayed.

5. Fire-fighting measures

General Fire Hazards: No unusual fire or explosion hazards noted.
Suitable (and unsuitable) extinguishing media

- **Suitable extinguishing media:**
  - Extinguish with foam, carbon dioxide, dry powder or water fog.

- **Unsuitable extinguishing media:**
  - None known.

Specific hazards arising from the chemical:

- During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters

- **Special fire fighting procedures:**
  - Move containers from fire area if you can do so without risk. Use water spray to keep fire-exposed containers cool. Cool containers exposed to flames with water until well after the fire is out.

- **Special protective equipment for fire-fighters:**
  - Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

6. Accidental release measures

- **Personal precautions, protective equipment and emergency procedures:**
  - See Section 8 of the MSDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away. Ventilate closed spaces before entering them. Use personal protective equipment.

- **Methods and material for containment and cleaning up:**
  - Neutralize with lime or soda ash. Sweep up and place in a clearly labeled container for chemical waste. Clean surface thoroughly to remove residual contamination.

- **Notification Procedures:**
  - Inform authorities if large amounts are involved.

- **Environmental Precautions:**
  - Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.

7. Handling and storage

- **Precautions for safe handling:**
  - Use personal protective equipment as required. Do not get in eyes and avoid contact with skin and clothing. Wash hands thoroughly after handling. Avoid inhalation of dust. Use caution when adding this material to water. Add material slowly when mixing with water. Do not add water to the material; instead, add the material to the water.

- **Conditions for safe storage, including any incompatibilities:**
  - Keep container tightly closed. Store in a dry place. Store in a well-ventilated place. Do not store in metal containers.

### Appropriate Engineering Controls

No data available.

### Individual protection measures, such as personal protective equipment

**General information:**
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. An eye wash and safety shower must be available in the immediate work area.

**Eye/face protection:**
Wear safety glasses with side shields (or goggles).

**Skin Protection**

**Hand Protection:**
Chemical resistant gloves

**Other:**
Wear suitable protective clothing and gloves.

**Respiratory Protection:**
In case of inadequate ventilation use suitable respirator. Air-purifying respirator with a high efficiency particulate filter.

**Hygiene measures:**
Provide eyewash station and safety shower. Observe good industrial hygiene practices. Wash contaminated clothing before reuse. Wash hands before breaks and immediately after handling the product. Contaminated work clothing should not be allowed out of the workplace.
