SAFETY DATA SHEET
according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Date of issue: 06/13/2014
Version 1.0

SECTION 1. Identification

Product identifier

Product number 111278
Product name M FC agar for microbiology

Relevant identified uses of the substance or mixture and uses advised against

Identified uses Use restricted under TSCA to research and development or as analytical reagent. Uses regulated under FDA or FIFRA are not affected.
Biochemical research/analysis

Details of the supplier of the safety data sheet

Company EMD Millipore Corporation | 290 Concord Road, Billerica, MA 01821, United States of America | General Inquiries: +1-978-715-4321 | Monday to Friday, 9:00 AM to 4:00 PM Eastern Time (GMT-5)

Emergency telephone 800-424-9300 CHEMTREC (USA)
+1-703-527-3887 CHEMTREC (International)
24 Hours/day; 7 Days/week

SECTION 2. Hazards identification

GHS-Labeling

Hazard Statements
Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

OSHA Hazards
This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). This information is based on 29 CFR 1910.1200 criteria prior to adoption of the GHS and may deviate from the GHS information.

Other hazards
None known.

SECTION 3. Composition/information on ingredients

Chemical nature Mixture for culture media.
Hazardous ingredients

Chemical Name (Concentration)
CAS-No.
Sodium chloride (>= 10 % - < 30 %)
7647-14-5
Exact percentages are being withheld as a trade secret.
sodium deoxycholate (>= 1 % - < 5 %)
302-95-4
Exact percentages are being withheld as a trade secret.

SECTION 4. First aid measures

Description of first-aid measures

Inhalation
After inhalation: fresh air.

Skin contact
After skin contact: wash off with plenty of water. Remove contaminated clothing.

Eye contact
After eye contact: rinse out with plenty of water.

Ingestion
After swallowing: make victim drink water (two glasses at most). Consult doctor if feeling unwell.

Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed
Diarrhea

Indication of any immediate medical attention and special treatment needed
No information available.

SECTION 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media
Water, Carbon dioxide (CO2), Foam, Dry powder

Unsuitable extinguishing media
For this substance/mixture no limitations of extinguishing agents are given.

Special hazards arising from the substance or mixture
Combustible.
Development of hazardous combustion gases or vapors possible in the event of fire.
Fire may cause evolution of:
Hydrogen chloride gas

Advice for firefighters

Special protective equipment for fire-fighters
Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.
Further information
Suppress (knock down) gases/vapors/mists with a water spray jet. Prevent fire extinguishing water from contaminating surface water or the ground water system.

SECTION 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Advice for non-emergency personnel: Avoid inhalation of dusts. Evacuate the danger area, observe emergency procedures, consult an expert.

Advice for emergency responders: Protective equipment see section 8.

Environmental precautions
Do not empty into drains.

Methods and materials for containment and cleaning up
Cover drains. Collect, bind, and pump off spills.
Observe possible material restrictions (see sections 7 and 10).
Take up dry. Dispose of properly. Clean up affected area. Avoid generation of dusts.

SECTION 7. Handling and storage

Precautions for safe handling
Observe label precautions.

Conditions for safe storage, including any incompatibilities
Tightly closed. Dry.
Store at +15°C to +25°C (+59°F to +77°F).

SECTION 8. Exposure controls/personal protection

Exposure limit(s)
Contains no substances with occupational exposure limit values.

Engineering measures
Technical measures and appropriate working operations should be given priority over the use of personal protective equipment.

Individual protection measures
Protective clothing should be selected specifically for the workplace, depending on concentration and quantity of the hazardous substances handled. The chemical resistance of the protective equipment should be inquired at the respective supplier.

Hygiene measures
Change contaminated clothing. Wash hands after working with substance.

Eye/face protection
Safety glasses

Hand protection
Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Respiratory protection
required when dusts are generated.
Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**SECTION  9. Physical and chemical properties**

- **Physical state**: solid
- **Color**: blue
- **Odor**: peptone-like
- **Odor Threshold**: No information available.
- **pH**: 7.2 - 7.6 at 52 g/l 77 °F (25 °C)
- **Melting point**: No information available.
- **Boiling point**: No information available.
- **Flash point**: No information available.
- **Evaporation rate**: No information available.
- **Flammability (solid, gas)**: No information available.
- **Lower explosion limit**: No information available.
- **Upper explosion limit**: No information available.
- **Vapor pressure**: No information available.
- **Relative vapor density**: No information available.
- **Density**: No information available.
- **Relative density**: No information available.
- **Water solubility**: 52 g/l at 212 °F (100 °C)
- **Partition coefficient: n-octanol/water**: No information available.
- **Autoignition temperature**: No information available.
- **Decomposition temperature**: No information available.
- **Viscosity, dynamic**: No information available.
**Explosive properties**  
Not classified as explosive.

**Oxidizing properties**  
one none

## SECTION 10. Stability and reactivity

### Reactivity

The following applies in general to flammable organic substances and mixtures: in correspondingly fine distribution, when whirled up a dust explosion potential may generally be assumed.

### Chemical stability

The product is chemically stable under standard ambient conditions (room temperature).

### Possibility of hazardous reactions

- Violent reactions possible with:
  - Strong oxidizing agents

### Conditions to avoid

- no information available

### Incompatible materials

- no information available

### Hazardous decomposition products

- in the event of fire: See section 5.

## SECTION 11. Toxicological information

### Information on toxicological effects

- **Likely route of exposure**
  - Eye contact, Skin contact, Ingestion

- **Target Organs**
  - Skin
  - Eyes
  - Stomach

- **Acute oral toxicity**
  - Symptoms: After uptake of large quantities:
    - Diarrhea
  - Acute toxicity estimate: > 2,000 mg/kg
  - Calculation method

- **Specific target organ systemic toxicity - single exposure**
  - The substance or mixture is not classified as specific target organ toxicant, single exposure.

- **Specific target organ systemic toxicity - repeated exposure**
  - The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

- **Aspiration hazard**
  - Regarding the available data the classification criteria are not fulfilled.
Carcinogenicity

IARC
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

ACGIH
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

Further information
Hazardous properties cannot be excluded but are unlikely when the product is handled appropriately.
Handle in accordance with good industrial hygiene and safety practice.

Ingredients

Sodium chloride
Acute oral toxicity
LD50 rat: 3,000 mg/kg (RTECS)

Acute dermal toxicity
LD50 rabbit: > 10,000 mg/kg (RTECS)

Germ cell mutagenicity
Genotoxicity in vitro
Mutagenicity (mammal cell test): micronucleus.
Result: negative (IUCLID)

Ames test
Result: negative (IUCLID)

sodium deoxycholate
Acute oral toxicity
LD50 rat: 1,370 mg/kg (RTECS)

SECTION 12. Ecological information

Ecotoxicity
No information available.

Persistence and degradability
No information available.
Bioaccumulative potential
No information available.

Mobility in soil
No information available.

Additional ecological information
Discharge into the environment must be avoided.

Ingredients

*Sodium chloride*

Toxicity to fish
LC50 Pimephales promelas (fathead minnow): 7,650 mg/l; 96 h (IUCLID)

Toxicity to daphnia and other aquatic invertebrates
EC50 Daphnia magna (Water flea): 1,000 mg/l; 48 h (IUCLID)

Biodegradability
The methods for determining the biological degradability are not applicable to inorganic substances.

*sodium deoxycholate*
No information available.

SECTION 13. Disposal considerations
The information presented only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. Disposal should be in accordance with applicable regional, national and local laws and regulations.

SECTION 14. Transport information

Land transport (DOT)
Not classified as dangerous in the meaning of transport regulations.

Air transport (IATA)
Not classified as dangerous in the meaning of transport regulations.

Sea transport (IMDG)
Not classified as dangerous in the meaning of transport regulations.

SECTION 15. Regulatory information

United States of America
OSHA Hazards
Target organ effects
Harmful if swallowed.
This information is based on 29 CFR 1910.1200 criteria prior to adoption of the GHS, and may deviate from the GHS information on the label and in section 2.

**SARA 311/312 Hazards**
- Acute Health Hazard
- Chronic Health Hazard

**SARA 313**
SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

**SARA 302**
SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

**Clean Water Act**
This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A.
This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311, Table 117.3.

**DEA List I**
- Not listed

**DEA List II**
- Not listed

**US State Regulations**

**Massachusetts Right To Know**
- Remarks
- No components are subject to the Massachusetts Right to Know Act.

**Pennsylvania Right To Know**

*Ingredients*
- Agar
- lactose
- Sodium chloride
- Peptones, casein
- Meat extracts, beef

**New Jersey Right To Know**

*Ingredients*
- Agar
- lactose
- Sodium chloride
- Peptones, casein
- Meat extracts, beef

**California Prop 65 Components**
- This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.
Notification status

TSCA: Not Listed on TSCA inventory. For Research and Development Use only. Not For Manufacturing or Commercial Purposes.

DSL: This product contains one or several components that are not on the Canadian DSL nor NDSL.

SECTION 16. Other information

Training advice
Provide adequate information, instruction and training for operators.

Key or legend to abbreviations and acronyms used in the safety data sheet
Used abbreviations and acronyms can be looked up at www.wikipedia.org.

Date of issue: 06/13/2014

The information contained herein is based on the present state of our knowledge. It characterizes the product with regard to appropriate safety precautions. It does not represent a warranty of any product properties and we assume no liability for any loss or injury which may result from the use of this information. Users should conduct their own investigations to determine the suitability of the information.
