### SECTION 1: Identification of the substance/mixture and of the supplier

**Product name:** Phenolphthalein, ACS

**Manufacturer/Supplier Trade name:** Phenolphthalein, ACS

**Manufacturer/Supplier Article number:** S25466

**Recommended uses of the product and uses restrictions on use:**

**Manufacturer Details:**
- AquaPhoenix Scientific
  - 9 Barnhart Drive, Hanover, PA 17331

**Supplier Details:**
- Fisher Science Education
  - 15 Jet View Drive, Rochester, NY 14624

**Emergency telephone number:**
- Fisher Science Education    Emergency Telephone No.: 800-535-5053

### SECTION 2: Hazards identification

**Classification of the substance or mixture:**

- **Health hazard**
  - Carcinogenicity, category 1B
  - Germ cell mutagenicity, category 2
  - Reproductive toxicity, category 2

  Muta. 2: H341  
  Carc. 1B: H350  
  Repr. 2: H361f  
  HNOC: Combustible Dust

**Signal word:** Danger

**Hazard statements:**
- Suspected of causing genetic defects
- May cause cancer
- Suspected of damaging fertility or the unborn child

**Precautionary statements:**
- If medical advice is needed, have product container or label at hand
- Keep out of reach of children
- Read label before use
- Wear protective gloves/protective clothing/eye protection/face protection
- Obtain special instructions before use
- Do not handle until all safety precautions have been read and understood
- Do not eat, drink or smoke when using this product
- IF exposed or concerned: Get medical advice/attention
- Store locked up
- Dispose of contents/container to ...

**Other Non-GHS Classification:**
SECTION 3 : Composition/information on ingredients

Ingredients:

<table>

SECTION 4 : First aid measures

Description of first aid measures

After inhalation: Move exposed individual to fresh air. Loosen clothing as necessary and position individual in a comfortable position. Seek medical advice if discomfort or irritation persists.

After skin contact: Wash affected area with soap and water. Rinse/flush exposed skin gently using water for 15-20 minutes. Seek medical attention if irritation persists or if concerned.

After eye contact: Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists.

Most important symptoms and effects, both acute and delayed:

Nausea, Headache, Shortness of breath. Irritation- all routes of exposure.

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician.

SECTION 5 : Firefighting measures

Extinguishing media

Suitable extinguishing agents: Water. Carbon dioxide. Dry chemical. If in laboratory setting, follow laboratory fire suppression procedures. Use appropriate fire suppression agents for adjacent combustible materials or sources of ignition.
For safety reasons unsuitable extinguishing agents:

Special hazards arising from the substance or mixture:
Combustion products may include carbon oxides or other toxic vapors. This material in sufficient quantity and reduced particle size is capable of creating a dust explosion.

Advice for firefighters:

Protective equipment:

Additional information (precautions): Move product containers away from fire or keep cool with water spray as a protective measure, where feasible.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:
Wear protective equipment. Use respiratory protective device against the effects of fumes/dust/aerosol. Ensure adequate ventilation. Protect from heat. Stop the spill, if possible. Transfer to a disposal or recovery container.

Environmental precautions:
Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13.

Methods and material for containment and cleaning up:
If in a laboratory setting, follow Chemical Hygiene Plan procedures. Place into properly labeled containers for recovery or disposal. If necessary, use trained response staff/contractor.

Reference to other sections:

SECTION 7: Handling and storage

Precautions for safe handling:
Follow good hygiene procedures when handling chemical materials. Do not eat, drink, smoke, or use personal products when handling chemical substances. If in a laboratory setting, follow Chemical Hygiene Plan. Use only in well ventilated areas. Wash hands after handling. Avoid contact with skin and eyes. Avoid generating dust. Avoid inhalation and ingestion. Use in a chemical fume hood.

Conditions for safe storage, including any incompatibilities:
Provide ventilation for containers. Store away from foodstuffs. Store in cool, dry conditions in well sealed containers. Store with like hazards. Protect from freezing and physical damage.

SECTION 8: Exposure controls/personal protection

Control Parameters:
77-09-8, Nuisance dust, ACGIH TLV TWA: 10mg/m³ (inhalable particles)
77-09-8, Nuisance dust, OSHA PEL TWA: 15 mg/m³ (total dust)

Appropriate Engineering controls:
Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.

Respiratory protection:
Not required under normal conditions of use. Use suitable respiratory protective device when high concentrations are present. Use suitable respiratory protective device when aerosol or mist is formed. For spills, respiratory protection may be advisable.
Protection of skin: The glove material has to be impermeable and resistant to the product/the substance/the preparation being used/handled. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Eye protection: Safety glasses with side shields or goggles.

General hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals. Keep away from food, beverages and feed sources. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases/fumes/dust/mist/vapor/aerosols. Avoid contact with the eyes and skin.

SECTION 9 : Physical and chemical properties

SECTION 10 : Stability and reactivity

Reactivity: Nonreactive under normal conditions.

Chemical stability: No decomposition if used and stored according to specifications.

Possible hazardous reactions: None under normal processing

Hazardous decomposition products: Carbon oxides (CO, CO2).

SECTION 11 : Toxicological information

Acute Toxicity: No additional information.

Chronic Toxicity: No additional information.

Corrosion Irritation: No additional information.
Phenolphthalein, ACS

| Sensitization: | No additional information. |
| Single Target Organ (STOT): | No additional information. |
| Numerical Measures: | No additional information. |

**Carcinogenicity:**
- IARC: Group 2B (Possibly Carcinogenic to Humans) - Monograph 76 [2000] (Phenolphthalein 77-09-8)
- NTP (National Toxicology Program): Evidence of Carcinogenicity - Clear Evidence (TR-465) Male Rat - Clear Evidence; Female Rat - Some Evidence; Male Mice - Clear Evidence; Female Mice (Phenolphthalein 77-09-8)
- NTP (National Toxicology Program): Reasonably Anticipated To Be A Human Carcinogen (Phenolphthalein 77-09-8)
- OSHA - Hazard Communication Carcinogens (list): Present (Phenolphthalein 77-09-8)

**Mutagenicity:**
No additional information.

**Reproductive Toxicity:**
No additional information.

**SECTION 12 : Ecological information**

**Ecotoxicity**
- *Daphnia magna*: EC50 Effect conc. > 100 mg/L
- *Desmodesmus subspicatus*: EC50: Effect conc. 8.9 mg/L

**Persistence and degradability:**
Readily degradable in the environment.

**Bioaccumulative potential:**

**Mobility in soil:**
Aqueous solution has high mobility in soil.

**Other adverse effects:**

**SECTION 13 : Disposal considerations**

**Waste disposal recommendations:**
Product/containers must not be disposed together with household garbage. Do not allow product to reach sewage system or open water. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Consult federal state/provincial and local regulations regarding the proper disposal of waste material that may incorporate some amount of this product.

**SECTION 14 : Transport information**

**UN-Number**
Not Dangerous Goods

**UN proper shipping name**
Not Dangerous Goods

**Transport hazard class(es)**

**Packing group:** Not Dangerous Goods

**Environmental hazard:**

**Transport in bulk:**

**Special precautions for user:**

**SECTION 15 : Regulatory information**
Phenolphthalein,ACS

United States (USA)

SARA Section 311/312 (Specific toxic chemical listings):
- Chronic

SARA Section 313 (Specific toxic chemical listings):
- 77-09-8 Phenolphthalein 0.1 % de minimis concentration

RCRA (hazardous waste code):
- None of the ingredients is listed

TSCA (Toxic Substances Control Act):
- All ingredients are listed.

CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):
- None of the ingredients is listed

Proposition 65 (California):

Chemicals known to cause cancer:
- 77-09-8 Phenolphthalein

Chemicals known to cause reproductive toxicity for females:
- None of the ingredients is listed

Chemicals known to cause reproductive toxicity for males:
- None of the ingredients is listed

Chemicals known to cause developmental toxicity:
- None of the ingredients is listed

Canada

Canadian Domestic Substances List (DSL):
- All ingredients are listed.

Canadian NPRI Ingredient Disclosure list (limit 0.1%):
- None of the ingredients is listed

Canadian NPRI Ingredient Disclosure list (limit 1%):
- None of the ingredients is listed

SECTION 16 : Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note:. The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
